Psalm 127:1-5  
August 10, 2014

### Principle for building family:

Principle #1: Only the Lord can build a family.

Principle #2: Trying to build a family without Him is useless.

Principle #3: Only the Lord can protect a family.

### Four ways to know you're operating in your own strength:

I know I'm operating in my own strength when I get angry.

I know I'm operating in my own strength when I get anxious.

I know I'm operating in my own strength when I get impatient.

I know I'm operating in my own strength when I feel empty.

### The three "I can't's" of building a family:

I can't do enough. (v.2)

I can't study enough. (v.2)

I can't care enough. (v.2)

### Question: How do you allow the Lord to build your family?

You must invite Him into your life.

You must invite Him into your family.
